

# Alro Plastics

Your Source for Engineering Plastics

Sheet • Rod • Tube • Film • Profiles • Machined Parts

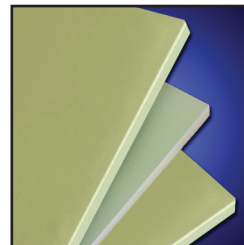

## Electrical Grade Laminates

Alro Plastics is a stocking distributor of a wide variety of industrial & electrical grade laminates. Some common uses of these high pressure laminates are as electrical insulators and as printed circuit board substrates. Alro stocks these laminates in sheets, rod and tubing in a variety of resins and fibers. On top of that Alro can also supply them as cut to size pieces as well as fabricated parts made to print.

### GPO-3 Sheets

- Grades L-50 (Red)
- Sheets .031" - 1.00" thick
- UL File #E82624

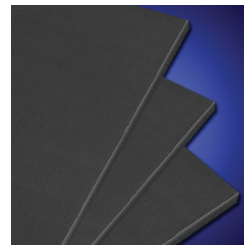

### Glass Epoxy

- G7, G9, G11, G10/FR4
- Sheets .010" - 6.00" thick
- Rods .062" - 6.00" dia.\*
- Tubing also available

### Canvas Phenolic

- Grades C and CE
- Sheets .031" - 6.00" thick
- Rods .062" - 6.00" dia.
- Tubing also available

### Paper Phenolic

- Grades XX and XXX
- Sheets .031" - 1.00" thick
- Rods .062" - 2.00" dia.
- Tubing also available

### Fabricated Parts

- Cut to size & per print items
- CNC Saws .031" - 7.00" thick
- Waterjet .031" - 10.00" thick
- Rod Saw .062" - 18.00" dia.
