

**Densetec HDPE Ramp Board  
Typical Properties**

Property	ASTM Test Method	Typical Values
		English Units
Density	D1505	43.2 lbs/ft <sup>3</sup> / .69 g/cc
Melt Index, Condition 190/2.16	D1238	0.25 g/10 min
Tensile Yield Strength	D638	
2" (50 mm) per min	Type IV	3200 psi
Flexural Modulus	D790	110,000 psi
Brittleness Temperature	D746	<-120 °F
<p><i>The nominal properties reported herein are typical of the product but do not reflect normal testing variance and therefore should not be used for specification purposes.</i></p>
