Alro Steel Opens New Facility in Philadelphia Area

Alro Steel has opened a new facility in the Philadelphia area located at 17 Progress Drive, Morrisville, PA 19067. The 149,000 square foot location was custom built to include extra storage space for an expanded material offering including large structural shapes, bar products, sheet and plate, and the ability to warehouse special inventory programs. In addition, Philadelphia has added capacity to its value-added processing services for bar and structural cutting, shearing, and aluminum plate sawing. The new inventory and expanded processing services allow Alro Philadelphia to focus on cut-to-size metals and next-day delivery to better serve its customers in the Northeast.

Alro Steel was founded in 1948 by brothers Al and Robert Glick, and is celebrating 75 years in 2023. The company is a distributor of metals, industrial supplies, and engineering plastics. Alro is focused on offering cut-to-size metals and plastics with next day delivery to over 50,000 customers in North America. Alro operates over 75 locations in 15 states and provides a broad inventory of products under the following companies: Alro Steel, Alro Metals, Alro Metals Outlet, Alro Industrial Supply, and Alro Plastics.
