

August 2024

## Alro Sponsors Local Driver at Michigan International Speedway

Alro Steel is sponsoring Morgen Baird in the Cabo Wabo 250 at Michigan International Speedway on August 17, 2024. Morgen, 31 and a native of Jackson, Michigan, will be making his NASCAR Xfinity Series debut in the #53 Alro Steel Ford Mustang with Joey Gase Motorsports.

“I’m deeply grateful to have Alro Steel join us for my Xfinity debut at my home track.” Said Morgen. “I can’t express enough thanks to the Alro team and Glick family for welcoming me and allowing me to represent their esteemed company. It’s a dream come true to align with a hometown company like Alro, based in Jackson, Michigan. This partnership feels natural, and I’m honored to be associated with a company that shares my passion for racing.”

- Cabo Wabo 250 at Michigan International Speedway
- Saturday, August 17 at 3:30pm EST, USA Network

# Alro Expands Carbon Hot Finished Seamless Tubing Inventory

Alro Steel is pleased to announce an expansion in our sourcing and size range of carbon Hot Finished Seamless (HFS) tubing. Our inventory of stocking sizes covers from 4" OD x .750" wall thickness through 17" OD x .500" wall. This expanded sourcing allows Alro Steel to better meet your needs while offering competitive pricing and reliable quality.

A519 Hot Finished Seamless tubing is produced from 1020/1026 carbon steel. HFS provides a cost-effective alternative to cold drawn seamless tubing. It is particularly well-suited for applications where precise finish dimensions and surface quality are less critical. HFS tubing is manufactured to specified outside diameter (OD) and wall thickness dimensions.

## Typical Uses

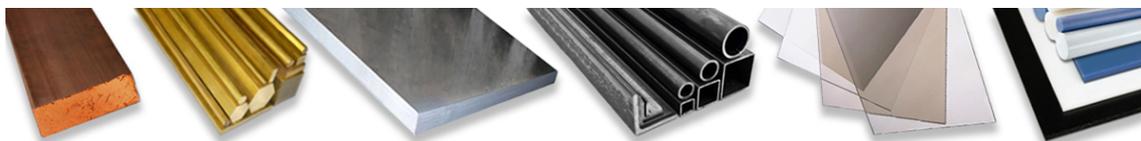

HFS tubes are designed for high-pressure and heavy-duty applications that demand strength and durability. They are commonly used in:

- Hydraulic cylinders
- Drilling equipment
- Bushings
- Spacers
- Axles
- Rollers
- Sleeves
