

POLYMER INDUSTRIES

GEARED TOWARDS EXCELLENCE

DENSETEC® ANTIMICROBIAL High Density Polyethylene

Unlike surface antimicrobials, the advanced antimicrobial technology protects against bacterial degradation for the lifetime of the product. Antimicrobial products are manufactured with an antimicrobial agent to inhibit bacterial or fungal growth and are resistant to deterioration by mold, fungus, or mildew. Studies have shown that surfaces with antimicrobial technology can inhibit the amount of certain product damaging bacteria by 99%.

Applications

- Food Service
- Medical Labs
- Dental Labs
- Operating Rooms
- Schools/Gyms
- Locker Rooms
- Playgrounds
- Nursing Homes

Key Features

Easily cleaned with household disinfectant
Integrated antimicrobial protection
Non-porous surface limits absorption
Stain and scratch resistant
Odor and moisture resistant
Easy to fabricate

Alro Steel
Metals & Plastics
