ZELUX®

Made from Polycarbonate Resin

ZELUX W — Window Grade Sheet ZELUX M — Machine Grade

MATERIAL SAFETY DATA SHEET

SECTION 1 - MATERIAL IDENTIFICATION AND INFORMATION

COMPONENTS – Chemical Name & Common Names Hazardous Components 1% or greater; Carcinogens 0.1% or greater)	%*	OSHA PEL	ACGIH TLV	Other Limits Recommended
Polycarbonate	*	Not Listed	Not Listed	
· · · · · · · · · · · · · · · · · · ·				
TOTAL	100			

SECTION 2 - PHYSICAL / CHEMICAL CHARACTERISTICS

Boiling Point	Not applicable	Specific Gravity (H2O=1)	1.20
Vapor Pressure (mm Hg and Temperatur	e) Not applicable	Melting Point	Not applicable
Vapor Density (Air = 1)	Not applicable	Evaporation Rate (= 1)	Not applicable
Solubility in Water	Insoluble	Water Reactive	Not applicable

SECTION 3 - FIRE AND EXPLOSION HAZARD DATA

Flash Point and>522 Method Used	℃ (ASTM D1929)	Auto-Ignition > Temperature	-550 ℃	Flammability Limits in Air % by Volume	Not applicable
Extinguisher Media	Dry chemica				
Special Fire Fighting Procedures	Burning pellet composition. V gases and aero	s create a black, Vear appropriate sols generated l	sooty sm respirato by therma	oke of uncertain haza ry protection for toxic l decomposition.	rd and and irritating
Unusual Fire and Explosion Hazards	There is no ex volatile organi	plosion hazard. c materials.	. Fire hazard is similar to that of other solid		

SECTION 4 - REACTIVITY HAZARD DATA

STABILITY (*)Stable ()Unstable	Conditions To Avoid	None specifically known		
Incompatibility (Materials to Avoid)		None specific incompatibility		
Hazardous Decomposition Products		Gases genera carbon dioxid	ated by combustion are carbon monoxide and/or le	
HAZARDOUS POLYMERIZATION ()May Occur (*)Will Not Occur		Conditions To Avoid	None specifically known	

SECTION 5 - HEALTH HAZARD DATA

Entry () Inha	lation () Ingesti	on () Skin Abso	orption (*) Not Hazardous	
n ()NTP	() OSHA	() IARC Mono	graph (*) Not Listed	
Acute	Not available Chronic		Not available	
Signs and Symptoms No effects observed or expected of Exposure				
Medical Conditions None known Generally Aggravated by Exposure				
Emergency First Aid Procedures Seek medical assistance for further treatment, observation and support if necessary.				
Eye Contact Flush eyes thoroughly with clean, low pressure water.				
Skin Contact Wash affected areas with soap and water.				
ntion None				
None				
	Acute No effe by Exposure Procedures Flush eyes thore Wash affected an	Acute Not available No effects observed or exposure None known by Exposure Procedures Seek medical assobservation and exposure Flush eyes thoroughly with clean, Wash affected areas with soap and	Acute Not available Chronic No effects observed or expected None known by Exposure Procedures Seek medical assistance for furthe observation and support if necess Flush eyes thoroughly with clean, low pressure was wash affected areas with soap and water. None	

^{*} Optional

SECTION 6 - CONTROL AND PROTECTIVE MEASURES

Respiratory Protection (Specify Type)	Not required Insulated gloves		
Protective Gloves			
Eye Protection	Safety glasses with side shields		
Ventilation To Be Used () Local Exhaust () Mechanical (general) () Special () Other (specify)	Not required Not required None None		
Other Protective Clothing and Equipment	Not required		
Hygienic Work Practices	Not required		

SECTION 7 – PRECAUTIONS FOR SAFE HANDLING AND USE / LEAK PROCEDURES

Steps to be Taken If Material Is Spilled Or Released	Sweep up and place in a waste disposal container				
Waste Disposal Methods Disposal must be in accordance with national and local regulation for nonhazardous waste.					
Precautions to be Taken in Handling and Storage		None			

Other Precautions and/or Special hazards

This material shall be used for molding purposes only. Processing of thermoplastic resins at temperatures commonly used in extrusion or injection molding may produce fumes which may be irritation to some individuals. The composition of the fumes is dependent on operating conditions, especially temperature and residence time; the specific formulation of the product being manufactured; surface area of the product being manufactured; equipment variables; and water content of the product formulation, among other characteristics. Overexposure in some individuals may produce irritation of the eyes, mucous membranes and upper respiratory tract. Well designed local exhaust ventilation should be used to capture these fumes and remove them from the workplace (see Section 6). Captured fumes and residues may be flammable and/or combustible, and ventilation systems must be designed, constructed, operated, and maintained to prevent fires and explosions. Wear protective clothing, including rubber gloves, to prevent skin contact during cleaning of the ventilation system.

* Optional

The data given here is on current knowledge and experience. The purpose of this Safety Data Sheet is to describe the products in term of their safty requirements. The data dose not signify any warrenty with regard to the product's properties.
