Plaskolite Strengthens Product Offerings through Acquisition

For Immediate Release

Columbus, Ohio (July 2, 2012) - Plaskolite, Inc., the largest US manufacturer of continuously processed thermoplastic sheet products, announces the acquisition of the VIVAK® PETG sheet USA business from Bayer MaterialScience LLC.

The purchase of the VIVAK PETG sheet business further enhances the company's product offering to its distribution customer base. "Our dedicated leadership team continuously searches for opportunities to further strengthen our position as an innovative leader in the industry", said James R. Dunn, President of Plaskolite.

VIVAK® is the brand and market leader for PETG products.

ABOUT PLASKOLITE

Founded in 1950 in Columbus, Ohio, USA by the Dunn Family, Plaskolite, Inc. is proud to be the largest privately owned U.S. manufacturer of continuously processed acrylic sheet products. Plaskolite's reputation is based on service, quality, stability and integrity. Plaskolite currently has more than 475 employees and operates manufacturing facilities in Columbus and Zanesville, Ohio, Grand Saline, Texas; Compton, California; Olive Branch, Mississippi and Monterrey, Mexico.
