Tool Management Solutions

SmartCell™ software

Highlights:

- Alro's solutions provide security for tooling and options for how to auto-replenish inventory.
- Alro offers a solution for truly lean, point-of-use dispensing unlike any other on the market.
- Alro's proprietary software is designed to be the most user-friendly and customizable software on the market.
 - Track usage to the detail of your choosing.
 - Easily load tool lists and kits.
 - Return tools to any of our machines except the SmartCoil.
- One SmartCell controller can manage any combination of our machine solutions in the same area.
- Alro's reporting offers you the best of both worlds, a host of standard reports at your finger tips, and the ability to customize reports to include details of your choosing.

SmartCart™ with Drawers

Ideal for: Point-of-use dispensing in cell manufacturing environments.

Highlights:

- Manages from 1 - 200 tools.
- Alro's original lean solution is unlike anything on the market.
- Number of drawers in each area is customized to number of tools being managed in the area.
- Modular solution allows addition of drawers as management of more tools is needed.
- Can manage inventory in any external cabinets or work area.
- Supports all functions of Alro's feature-rich SmartCell software.
- Works in combination with any of our other dispensing machines.
- **Cart Dimensions: 24" W x 52" H x 24" D**

SmartCabinet™

Ideal for: Central areas where many tools are being managed such as in a tool crib or a machining department.

Highlights:

- Manages more than 200 tools.
- Offers Pick-to-Light technology.
- Security at the drawer level.
- Designed for central dispensing in the shop or tool cribs.
- Can manage inventory in any external cabinets or work area.
- **Drawer dimensions: 26"L x 26"W x 3"D**
- **8 Drawer Cabinet Dimensions: 30" W x 50" H x 30" D**
- **11 Drawer Cabinet Dimensions: 30" W x 64" H x 30" D**

Tool Management Solutions

SmartCoil™

Ideal for: MRO, safety supplies or cutting tools where full security is preferred.

Highlights:

- Flexible coil configuration.
- Dispense up to 60 different items.
- LED lighting.
- Vend sensors.
- Flexible field reconfiguration.
- Combine coils to dispense larger items.
- Easy pullout, refillable trays.
- **Coil Machine Dimensions: 35" W x 73" H x 36" D**

SmartLocker™

Ideal for: Dispensing of larger items that do not fit in coil or drawer configurations.

Highlights:

- Two 18 door and one 36 door locker option allows user to store items of different size and shape.
- Works great for items like aerosol cans, gloves, tapes, power tools, preset tools.
- Since items can be returned, it allows for tracking of temporary use items.
- **18 Door Variable: 9 doors 7.75" x 11", 6 doors 11.50" x 11", 3 doors 22.50" x 11"**
- **18 Door Standard: 18 doors 11.50" x 11"**
- **36 Door Standard: 36 doors 6" x 11"**
- **Locker Dimensions: 39" W X 79" H X 27" D**

APOS (Alro Portable Order System)

Ideal for: Low cost, highly efficient, portable barcode scanning system.

Highlights:

- Helps you take control of items typically not tracked through other inventory systems.
- Streamlines replenishment and paperwork process.
- Automates the ordering process through a dedicated visual inventory program.
- Easily manages open access areas, central cribs or tooling cells.
- A single scanner manages all inventory locations.
- Printer allows user to print their own labels.
- Items are scanned, scanner is plugged into computer, items are retrieved from Alro and displayed for verification, order is uploaded to Alro.
- **Our APOS kit contains a Scanner, Label Printer, APOS software and cables.**
